CS5014 Machine Learning

Predicting energy use of appliances

March 5, 2018

Lecturer:
David Harris-Birtill
Kasim Terzić

Submitted By :
140011146

1 Introduction

2 Exploring the data

2.1 Loading and cleaning the data

2.2 Choosing inputs

3 Model selection and training

3.1 Model performance

4 Results

5 Conclusion and evaluation
